SKILLS

- ❖ Python, Java, C/C++(Basic), JavaScript
- ❖ HTML, CSS, Bootstrap, NodeJS, ReactJS, NextJS, MongoDB, ExpressJS
- ❖ SQL, Machine Learning, Cloud, Git

EDUCATION

- ❖ Bachelor of Technology in Computer Science and Engineering |VIT Bhopal University
  CGPA 8.67 | (Jul 2022 - Jul 2026)
- ❖ XII (CBSE) | Vivekanand Mission Vidhyapeeth
  72.8%| (2021)

ACADEMIC PROJECTS

- ❖ **E-Health Solution Hub** | MERN Stack   *(Ongoing)*
  - Developed a full-stack hospital management system using MongoDB, Express.js, React, and Node.js (MERN)
  - Designed appointment booking, patient record management, and real-time doctor consultations modules.
  - Integrated secure authentication and role-based access control for enhanced data privacy.

- ❖ **Alzheimer Detection** | Python, TensorFlow, CNNs   *(Dec 23 - March 24)*
  - Built a Deep Learning model with 70%+ accuracy for early-stage Alzheimer's detection.
  - Processed and analyzed MRI scans to improve classification efficiency.
  - Optimized CNN architecture to enhance for medical image capabilities.

- ❖ **Portfolio Website** | React   *(May 23 - Jul 23)*
  - Developed a responsive and interactive portfolio website using React.js.
  - Implemented smooth navigation, dynamic content rendering, and an engaging UI.
  - Deployed on Vercel/Netlify for optimized performance and accessibility.

POSITION OF RESPONSIBILITY

- ❖ **Design Team Lead | Blockchain Club, VIT Bhopal**   *(Jul 23- Jul24)*
  Led a team in creating engaging social media content, posters, and banners.
  Enhanced event visibility and boosted community engagement through creative design strategies.

CO-CURRICULAR

- Coding - Solved over 600+ Data Structures & Algorithms problems across: [Leetcode](#) |
  [GeeksforGeeks](#) | [CodingNinjas](#)

CERTIFICATES

- Cloud Computing - NPTEL

- The Bits and Bytes of Computer Networking - [Coursera](#)
